## CONTROL KITCHEN CHAOS WITH SMART STORAGE SOLUTIONS.

Who couldn't use a little help keeping life better organized? Tucked inside our cabinets are a multitude of organizational options just waiting to tidy your Tupperware<sup>®</sup> and make sense of your mess. With so many options to choose from, you can select the right combination for your personal needs. After all, cabinet organization is more than storage — it's peace of mind.

### PRIORITIZE THE OPTIONS YOU WOULD LIKE:

Circle the organizational features that you want to include in your kitchen design and then share this sheet with your designer. Take it a step further and color-code by circling must-have items in one color and nice-to-have items in another color.

### DESIGNER TIP:

Put your kitchen to work with storage that will keep everything in its place and clutter out of sight.

**Build them into your design from the start.**
